## 1. General information on clinical professor appointments

### 1.1 Delegation

The Dean is responsible for recruitment at Health and for ensuring that appointments take place in accordance with applicable laws, rules and guidelines. The Dean has delegated the recruitment authority to the Vice-dean for Research in accordance with these faculty guidelines.

### 1.2 Scope of the guidelines

These guidelines cover the appointment of clinical professors, including clinical professor and chairs, at Aarhus University (AU), Health, regardless of geographical location.

The guidelines cover all clinical professor appointments, regardless of whether the appointment is financed by ordinary or external funding or is exempted from the requirement for job advertisement in accordance with the Appointment Order's section 7 (appointment without advertisement), section 8 (earmarked grants) and section 9 (appointment and renewal for up to one year).

### 1.3 Target group and legal framework

The target group for these guidelines are Heads of Department at Health. The guidelines are based on the following applicable legislation and guidelines:

- [Universitetsloven](#)
- [Vedtægt for Aarhus Universitet](#)
- [Bekendtgørelse om ansættelse af videnskabeligt personale ved universiteter](#)
- [Cirkulære om protokollat om visse ansættelsesvilkår for videnskabeligt personale ved universiteter](#)
- [Bekendtgørelse om stillingsstruktur for videnskabeligt personale ved universiteter](#)
- [Bekendtgørelse af lov om tidsbegrænset ansættelse](#)
- [Lønkatalog for medarbejdere på Health](#)
- Medarbejder- og Kompetencestyrelsens lønoversigt

### 1.4 Recruitment norms

The field of applicants for academic positions at professor level must reflect the recruitment norms at Health. Both genders must thus as far as possible be represented among the applicants – while also taking academic considerations into account. These opportunities should be explored by a search committee before the position is advertised.

## 2. Schematic checklist over the recruitment process

<b>CHECKLIST: EMPLOYMENT IN CLINICAL PROFESSORSHIPS</b>	
The checklist also includes – with relevant modifications – positions that are not advertised in accordance with the Appointment Order's Sections 7 (appointment without advertisement <sup>1</sup> ), 8 (earmarked grants) and 9 (appointment and renewal for up to one year).	
<b>JOB ADVERTISEMENT</b>	
<b>Department management team</b>	Discusses the proposal for appointment within the given subject area based on the department's recruitment strategy, as well as proposals for appointment committee and search committee with the department's associate professors, senior researchers and professors or representatives of these groups. ### 3. General information on job advertisements, assessment committees and appointments

Appointments of clinical professors must take place on the basis of the applicable guidelines for recruitment and in accordance with [Aarhus University's norms for recruitment of academic staff to permanent positions](#).

Appointments at Health must be based on the specific recruitment strategy which must in turn comply with the general guidelines at Health.

### 3.1 Job advertisements

The department management team discusses the proposal for appointment within the given subject area based on the department's recruitment strategy, as well as proposals for appointment committee and search committee with the departments' associate professors, senior researchers and professors or representatives of these groups.

The Head of Department then describes/presents a recruitment package for the Vice-dean for Research:

- Ambitions for the position
- Job profile (including academic advertisement text ([Danish/English](#)) with the desired qualification requirements in areas such as research and teaching tasks, external funding etc.)
- Financing
- Preliminary proposal for the assessment committee (in particular assessors from outside AU)
- Proposal for a [search committee](#)
- Preliminary proposal for an [appointment committee](#)
- Preliminary process plan ([Danish/English](#)) for current recruitment (supported by HR)

All positions at clinical professor level must, in principal, be broadly formulated and advertised both nationally and internationally, unless special academic circumstances apply (see the Appointment Order, section 3). The Head of Department is authorised to decide how this requirement can be most appropriately complied with.

Moreover, the job advertisement must state the dates on which interviews are expected to be held.

#### 3.1.1 Shortlisting

If shortlisting is used, it must clearly be stated in the job advertisement. Once it has been decided to use shortlisting, it cannot later in the recruitment process be deselected.

Shortlisting refers to a process in which a small number of applicants are selected for an academic assessment from the total pool of applicants. The applicants selected for this assessment are those who are – on the basis of an academic assessment – assessed as best able to meet the relevant qualifications, competences, experience and potential demanded in the job advertisement.

The qualification requirements in the job advertisement must provide the basis for shortlisting, assessment and final recommendation and must therefore be considered very carefully.

For further information about shortlist, including the shortlisting process, please see ["Shortlisting in connection with recruitment"](#).

#### 3.1.2 Exemptions to the requirements for job advertisements

As a rule, all academic positions covered by the job structure must be advertised. However, the following exceptions<sup>4</sup> apply<sup>5</sup>:

- Pursuant to section 9 of the Appointment Order, appointments/extensions in all job categories can take place without prior advertisement for periods of employment of less than one year and subsequent extensions of one year (two years in total). Foreign professors and associate professors may, however, be appointed for a period of up to two years and subsequent extensions of one year (three years in total).
- Appointments for fully externally financed earmarked<sup>6</sup> grants (see the Appointment Order, section 8).
- Appointments in clinical professorships following appointment without advertisement (see section 7 of the Appointment Order), can only take place in very special cases and require approval by the Vice-dean for Research. Appointment without advertisement may not take place with internal candidates.

<sup>4</sup> Following a specific individual assessment, the Vice-dean for Research has the authority to grant exemption from Health's local guidelines.

<sup>5</sup> For appointments and extensions in accordance with sections 8 and 9, the ordinary rules for the appointment of assessment committees are used.

<sup>6</sup> "Earmarked" funds are defined as those where one hundred per cent of the position is financed to a named candidate.

### 3.2 Regarding clinical professors and chairs

For the function of clinical professor and chair, at the Department of Clinical Medicine, the following applies; within each of the medical specialities, a clinical professor and chair is to be appointed from among the clinical professors within the medical speciality. The decision on appointment is taken jointly by Aarhus University and the hospital management (AUH or Mental Health Services in the Central Denmark Region).<sup>7</sup>

### 3.3 Search Committee

A search committee is appointed when clinical professorships are advertised<sup>8</sup>. However, the faculty has decided that fully externally funded<sup>9</sup> clinical professorships are exempt from the requirements for a search committee. This means that clinical professorships which are not fully externally funded and earmarked a named person, must be advertised and a search committee must be appointed.

For further information about search committees, including information about the composition and the search committees work, please see "[Use of search committees](#)".

### 3.4 Appointment committee

The selection of the appointment committee's members takes place either concurrently with the preparation and finalisation of the job advertisement or immediately after the approval of the job advertisement.

#### 3.4.1 Composition of the appointment committee

An appointment committee<sup>10</sup> is appointed which undertakes the appointment to the clinical professorship and the associated consultant position. The appointment committee must – with due regard for the requirement in regard to academic qualifications – be inclusive and gender-diverse<sup>11</sup>.

- The chairing of the appointment committee is shared between the Head Consultant and the clinical professor and chair
- The Head of Department is automatically a member
- Relevant tenured (as a rule) members of academic staff

The Head of Department is responsible for ensuring that the composition of the appointment committee is also discussed by the department management team.

For further information about appointment committees, including information about the appointment committees' work, please see "[Guidelines for appointment committees](#)".

For further information about the appointment committees confidentiality and GDPR, please see "[Guidelines regarding confidentiality and GDPR for appointment, assessment and advisory committees](#)".

### 3.5 Re-advertisement

After the deadline, in the case of **clinical professorships**, the Head of Department, in a dialogue with AUH and assisted by the appointment committee, must determine whether there has been a sufficient number of qualified applicants. The assessment includes factors such as qualifications, diversity and area of research. If the assessment is that there has not been a sufficient number of qualified applicants, and there is a well-grounded presumption that

advertising the position, a second time will attract a broader and more qualified pool of applicants, the position must be re-advertised. If the position is re-advertised, this must be stated in the job advertisement and the re-advertisement must be for a minimum period of 14 days.

<sup>7</sup> See the agreement on clinical professors and academic coordinators in the healthcare sector in Central Denmark Region of 2 July 2021.

<sup>8</sup> Search committee is required for both fixed-term and permanent professorships.

<sup>9</sup> Full externally financed means that a position is 100 % funded by external grants. This means that there is a requirement for a search committee as soon as the financing includes sub-statement 1 funds.

<sup>10</sup> Positions that are not advertised are exempt from the requirement for an appointment committee.

<sup>11</sup> In accordance with Aarhus University's norms for recruitment of academic staff to permanent positions. This is only a requirement for positions as tenure track assistant professor.

### 3.6 Assessment committee

The Appointment Order lays down the general rules for the appointment of academic staff in accordance with section 4:

**Section 4.** *“The university determines the rules for the academic assessment of applicants for academic positions.*

*(2) The academic assessment committee must decide whether the applicants possess the required academic qualifications within research, teaching, communication, etc., as prescribed by the job structure, and whether they meet any other qualification requirements specified in the job advertisement. A non-prioritised, substantiated, written assessment of the applicants’ qualifications must be submitted to the rector. If there are any differences of opinion between the members of the assessment committee, this must be stated in the assessment.”*

The senior management team at AU has laid down the overall guidelines for the selection of members of assessment committees at AU in the spring of 2013. The guidelines should be seen as a framework. Each faculty has had the opportunity to add its input to and possibly narrow down this framework.<sup>12</sup>

Pursuant to the Ministerial Order on Appointment of Academic Staff at Universities and AU's general guidelines for academic assessment in connection with the appointment of academic staff (with/without advertisement) as well as extensions, the faculty management team at Health has adopted the following guidelines for the composition of assessment committees. (See Section 3.6.3).

The appointment of assessment committees should seek to ensure an equal distribution of men and women.

#### 3.6.1 Definition of an assessment committee

##### **Assessment committee:**

An assessment committee prepares an assessment.

#### 3.6.2 Eligibility requirements for assessment committees

To ensure that the assessment of applicants for academic positions is not affected by irrelevant considerations, no member of the committee may be judged unqualified to serve or at risk of having a conflict of interest in relation to individual assessments. Health bases its decisions on the regulations in the Danish Public Administration Act concerning impartiality, which relates to e.g. family relations, friendships and special personal and financial interests.<sup>13</sup> This may, for example, include co-publication, supervisor relations or other types of cooperation, which cannot be considered compatible with the role as assessment committee member in relation to the advertised position.<sup>14</sup>

At Health, members of assessment committees may only to a very limited extent be involved in joint publications and projects with applicants, and **only in exceptional cases** may have been involved in any joint publications within the past five years<sup>15</sup> (see Declaration of impartiality ([Danish/English](#))).

Furthermore, Dean, Vice-deans and Heads of Department may not act as members of an assessment committee, as they are a part of the management and therefore have authority to make decisions regarding appointments.

#### 3.6.3 Composition of assessment committees

For the composition of committees for the appointment of clinical professors, irrespective of the length of employment, an assessment committee must be established to prepare a clinical professor assessment.<sup>16</sup>

<sup>12</sup> See the memo on the composition of assessment committees at Health in accordance with AU's internally agreed framework of 9 August 2013, section 1.

<sup>13</sup> The Danish Public Administration Act, section 3 (1) (on disqualification)

<sup>14</sup> See the memo on the composition of assessment committees at Health in accordance with AU's internally agreed framework of 9 August 2013, section 3.

<sup>15</sup> See the memo on the composition of assessment committees at Health in accordance with AU's internally agreed framework of 9 August 2013, section 1.

<sup>16</sup> An emeritus cannot be a member of an assessment committee. The holder of an honorary title can be a member of an assessment committee.

### *Clinical professor*

An **assessment committee** is appointed consisting of three to five members at professor level, no more than one of whom can be internal and with at least one member from abroad. The assessment committee must thus have a majority of external<sup>17</sup> members.

The assessment committee must – with due regard for the requirement in regard to academic qualifications – be inclusive and gender-diverse<sup>18</sup>.

For further information about the assessment committees', including information about the assessment committees' work, please see ["Guidelines for assessment committee"](#).

For further information about the assessment committees' confidentiality and GDPR, please see ["Guidelines regarding confidentiality and GDPR for appointment, assessment and advisory committees"](#).

#### **3.6.4 Recommendation of members to the assessment committee**

Internal members of the assessment committee may not be part of the managerial structure at the department in question, as they make decisions regarding appointment.

This is why it is only possible to participate in assessment committees for positions at the same level or higher than one's own, though as a minimum at associate professor level. For example, the proposed assessors for an assessment committee for a clinical professorship must themselves be at professorial level.

Recommendations of members of the assessment committee for clinical professors **must** include the following:

- Statement of the name, position, place of employment, country and email address of the proposed assessor
- CVs must be submitted via a URL

The proposed members of the committee must be consulted and have signed a declaration of impartiality ([Danish/English](#)) before the proposal is sent to HR.

#### **3.6.5 Academic Council**

The Academic Council makes recommendations to the dean on the composition of expert committees to assess applicants for academic positions<sup>19</sup>.

For clinical professor positions, once this acceptance and declaration of impartiality is available, from the members of the assessment committee, HR sends the proposal for the composition of the committee for

consultation in the Academic Council. The council has a three-day deadline for objections. The Academic Council must receive the job advertisement/informative text so that the Academic Council can be heard on the committee's competences in relation to the position.

If the members of the Academic Council do not have any comments on the composition of the committee within three working days, the committee is considered recommended by the Academic Council. The proposal is subsequently submitted to the Vice-dean for Research, on delegation from the Dean, for approval.

#### **3.6.6 Approval of assessment committees**

The Vice-dean for Research approves committees for all clinical professor positions and ensures that the rules for the composition of committees have been complied with.

<sup>17</sup> Members from outside AU are defined as members who are not employed at Aarhus University (AU).

<sup>18</sup> In accordance with Aarhus University's norms for recruitment of academic staff to permanent positions. This is only a requirement for positions as tenure track assistant professor.

<sup>19</sup> See section 23 in Aarhus University By-laws.

### 3.6.7. Remuneration

Upon completion of the assessment process, the external members of the committee will receive an email with a form attached, which must be completed and returned, so that they can be remunerated for their participation.

### 3.6.8 Assessment

An assessment **must be** prepared for the appointment of a clinical professor regardless of the period of employment.

#### 3.6.8.1 Requirements and content

The assessment must be prepared on the basis of the material submitted by the applicant, which is assessed in relation to the following:

- The qualification level of the position in question, as described in the [Ministerial Order on Job Structure for Academic Staff at Universities](#)
- "Criteria for appointment – professor" ([Danish/English](#)) and "Template the assessment - professor" ([Danish/English](#))
- The position as described in the wording of the job advertisement/the academic description of the position

It should be noted that "Criteria for appointment - professor" supplements the qualification requirements in the job structure in the case of appointments to clinical professorships. It is important to emphasise that the criteria are intended as a guide and that they are not rules. An assessment will always be based on an overall assessment of the applicant, just as all criteria must be viewed in the light of the individual applicant's active research time (including the length of any periods of leave), potential and the academic area in question.

Requirements for the content and design of an assessment are stated in the "Template for assessment - professor" ([Danish/English](#)).

#### 3.6.8.2 Period of validity

Assessments carried out in accordance with these guidelines for fixed-term positions will remain valid as long as the appointment is within the same job category, if there are no significant changes to the position. Though in the case of fixed-term contracts, the assessment is for a maximum of five years.

A new assessment for fixed-term employment only takes place in the case of transition from one job category to another or if there is a change of position that entails significant changes to the position, or when the assessment is five years old.

In the case of permanent (tenured) positions, the assessment is valid throughout the period of employment.

### 3.6.9 Approval of assessments

The Vice-dean for Research ensures that the formal requirements of an assessment are met for clinical professor positions.

If the assessment does not constitute a sufficient basis for decision and/or does not meet the formal requirements, it must be returned to the committee for additions or revision.

If there is disagreement among the members of the assessment committee, the Vice-dean for Research has the final decision-making authority. Any differences of opinion between the assessors must be stated in the assessment, following which the Vice-dean for Research makes the final decision on whether the candidate is assessed as being qualified or not qualified.

Once the final assessment is available, the applicant will receive the committee's assessment of this. This is sent electronically by HR.

#### 4. Recommendation for interview

The department management team and the appointment committee decide on the selection of candidates for job interviews and conducts these once the assessments have been received. The applicant may also be asked to give a trial lecture before the appointment is recommended.

For further information about the selection of candidates for job interviews, please see [Guidelines for appointment committees](#).

##### 4.1 References

References should be obtained as part of the efforts to employ the best qualified applicant. Obtaining references requires the consent of the applicant.

For further information about obtaining references, please see "[Guidelines for obtaining references](#)".
