3. General information on job advertisements, assessment committees and appointments

3.1 Job advertisements

In accordance with the department's appointment and recruitment strategy as well job position plans, the department management team decides which job to advertise.

The department management team can advertise other academic staff positions.

3.1.1 Shortlisting

If shortlisting is used, it must clearly be stated in the job advertisement in question that shortlisting is possible. Once it has been decided to use shortlisting, it cannot later in the recruitment process be deselected.

Shortlisting refers to a process in which a small number of applicants are selected for an academic assessment from the total pool of applicants. The applicants selected for this assessment are those who are – based on an academic assessment – assessed as best able to meet the relevant qualifications, competences, experience and potential demanded in the job advertisement.

The qualification requirements in the job advertisement must provide the basis for shortlisting, assessment and final recommendation and must therefore be considered very carefully.

For further information about shortlist, including the shortlisting process, please see ["Shortlisting in connection with recruitment"](#).

3.1.2 Exemptions to the requirements for job advertisements

As a rule, all academic positions covered by the job structure must be advertised. However, the following exceptions apply⁵:

- Pursuant to section 9 of the Appointment Order, appointments/extensions in all job categories can take place without prior advertisement for periods of employment of less than one year and subsequent extensions of one year (two years in total).
- Appointments for earmarked grants (see the appointment order, section 8).

⁵ For appointments and extensions in accordance with sections 8 and 9, the ordinary rules for the appointment of assessment committees are used.

3.1.3 Minimum number of hours in the position (employment rate)

At Health, it is not a wish to have part-time positions with an employment rate of less than 20%.

In other words, positions must have a minimum of 7.4 hours per week, corresponding to 20% of a full-time position. The Vice-dean for Research may, however, after a specific and individual assessment, grant exemptions from the requirement for an employment rate of at least 20%.

3.2 Appointment committee

The selection of the appointment committee's members⁶ takes place either concurrently with the preparation and finalisation of the job advertisement or immediately after the approval of the job advertisement.

3.2.1 Composition of the appointment committee

An appointment committee is set up⁷ which undertakes appointments to the position of other academic staff.

- The Head of Department or other manager (authorised by the Head of Department) is chair
- The Head of Department appoints the other members after seeking relevant advice

For further information about appointment committees, including information about the appointment committees' work, please see ["Guidelines for appointment committees"](#).

For further information about the appointment committees confidentiality and GDPR, please see ["Guidelines regarding confidentiality and GDPR for appointment, assessment and advisory committees"](#).

3.3 Assessment committee

The Appointment Order lays down the general rules for the appointment of academic staff in accordance with section 4:

Section 4. *"The university determines the rules for the academic assessment of applicants for academic positions.*

(2) The academic assessment must decide whether the applicants possess the required academic qualifications within research, teaching, communication, etc., as prescribed by the job structure, and whether they meet any other qualification requirements specified in the job advertisement. A non-prioritised, substantiated, written assessment of the applicants' qualifications must be submitted to the rector. If there are any differences of opinion between the members of the assessment committee, this must be stated in the assessment."

The senior management team at AU has laid down the overall guidelines for the selection of members of assessment committees at AU in the spring of 2013. The guidelines should be seen as a framework. Each faculty has had the opportunity to add its input to and possibly narrow down this framework⁸.

Pursuant to the Ministerial Order on Appointment of Academic Staff at Universities and AU's general guidelines for academic assessment in connection with the appointment of academic staff (with/without advertisement) as well

as extensions, the faculty management team at Health has adopted the following guidelines for the composition of assessment committees. (See section 3.3.3).

The appointment of assessment committees should seek to ensure an equal distribution of men and women.

3.3.1 Definition of an assessment committee

Assessment committee:

An assessment committee prepares an assessment.

⁶ An appointment committee is a possibility in the case of other academic staff appointments, but they are a requirement when using shortlisting.

⁷ An appointment committee is a possibility in the case of other academic staff appointments, but they are a requirement when using shortlisting.

⁸ See the memo on the composition of assessment committees at Health in accordance with AU's internally agreed framework of 9 August 2013, section 1.

3.3.2 Eligibility requirements for assessment committees

To ensure that the assessment of applicants for academic positions is not affected by irrelevant considerations,

no member of the committee may be judged unqualified to serve or at risk of having a conflict of interest in relation to individual assessments. Health bases these requirements on the general regulations of the Danish Public Administration Act, which among other things relate to family relationships, friendships and special personal and economic interests.⁹ This can for example, include co-publication, supervisor relations or other types of cooperation, which cannot be considered compatible with the role as assessment committee member in relation to the advertised position.¹⁰

At Health, members of assessment committees may only to a very limited extent be involved in joint publications and projects with applicants, and **only in exceptional cases** may have been involved in any joint publications within the past five years¹¹ (see Declaration of impartiality ([Danish/English](#))).

Furthermore, Dean, Vice-deans and Heads of Department may not act as members of an assessment committee, as they are a part of the management and therefore have authority to make decisions regarding appointments.

3.3.3 Composition of committees

For the composition of committees for the appointment of other academic staff, irrespective of the length of employment, an assessment committee must be established to prepare an assessment.¹²

Research assistant, teaching assistant, part-time lecturer, clinical instructor, senior clinical instructor of dentistry.

An **assessment committee** is appointed consisting of up to two members at associate professor level or higher. There are no requirements as to whether the members should be internal or external.

Teaching assistant professor

An **assessment committee** is appointed consisting of two members at associate professor level or higher. As a rule, at least one of the members should be from outside Aarhus University.

Teaching associate professor

An **assessment committee** is appointed consisting of three members at associate professor level or higher. As a rule, at least two of the members should be from outside Aarhus University and ideally from abroad.

For further information about the assessment committees', including information about the assessment committees' work, please see "[Guidelines for assessment committee](#)".

For further information about the assessment committees' confidentiality and GDPR, please see "[Guidelines regarding confidentiality and GDPR for appointment, assessment and advisory committees](#)".

3.3.4 Recommendation of members to the assessment committee

Internal members of the assessment committee may not be part of the managerial structure at the department in question, as they make decisions regarding appointment.

Recommendations of members of the assessment committee for other academic staff **must** include the following:

- Statement of the name, position, place of employment, country and email address of the proposed member of the assessment committee
- CVs must be submitted via a URL

⁹ See the Danish Public Administration Act, section 3 (1) (on disqualification).

⁴ See the memo on the composition of assessment committees at Health in accordance with AU's internally agreed framework of 9 August 2013, section 3.

¹¹ See the memo on the composition of assessment committees at Health in accordance with AU's internally agreed framework of 9 August 2013, section 1.

¹² An emeritus cannot be a member of an assessment committee. The holder of an honorary title can be a member of an assessment committee.

The proposed members of the committee must be consulted and have signed a declaration of impartiality ([Danish/English](#)) before the proposal is sent to HR.

3.3.5 Approval of assessment committees

The Head of Department approves committees for all other academic positions and ensures that the rules for the composition of committees have been complied with.

The proposed members of the committee must be consulted and have signed a declaration of impartiality before the proposal is sent to HR.

3.3.6 Assessment

An assessment **must be** prepared for the appointment of other academic staff, irrespective of the length of employment.

3.3.6.1 Requirements and content

The assessment must be prepared based on the material submitted by the applicant, which is assessed in relation to the following:

- The qualification level of the position in question, as described in the [Ministerial Order on Job Structure for Academic Staff at Universities](#)
- "Criteria for appointment – other academic positions" ([Danish/English](#)) and "Template for assessment – other academic positions" ([Danish/English](#)).
- The position as described in the wording of the job advertisement/the academic description of the position

It should be noted that the "Criteria for appointment – other academic positions" supplement the qualification requirements in the job structure in the case of appointments to this type of position. It is important to emphasise that the criteria are intended as a guide and that they are not rules. An assessment will always be based on an overall assessment of the applicant, just as all criteria must be viewed in the light of the individual applicant's active research time (including the length of any periods of leave), potential and the academic area in question.

Requirements for the content and design of an assessment are stated in the "Template for assessment – other academic positions" ([Danish/English](#)).

3.3.6.2 Period of validity

Assessments carried out in accordance with these guidelines for fixed-term positions will remain valid as long as the appointment is within the same job category, if there are no significant changes to the position.

Though in the case of fixed-term contracts, the assessment is for a maximum of five years. Please note that not all types of positions may be filled for five years or more, cf. [Ministerial Order on Job Structure for Academic Staff at Universities](#).

A new assessment for fixed-term employment only takes place in the case of transition from one job category to another or if there is a change of position that entails significant changes to the position, or when the assessment is five years old.

In the case of permanent (tenured) positions, the assessment is valid throughout the period of employment. Please note that permanent employment may only take place in certain types of positions, cf. [Ministerial Order on Job Structure for Academic Staff at Universities](#).

3.3.7 Approval of assessments

The Head of Department ensures that the formal requirements for a position are met.

If the assessment does not constitute a sufficient basis for decision and/or does not meet the formal requirements, it must be returned to the committee for additions or revision.

If there is disagreement among the members of the assessment committee, the Head of Department has the final decision-making authority. Any differences of opinion between the members of the assessment committee must be stated in the assessment, following which the Head of Department makes the final decision on whether the candidate is assessed as being qualified or not qualified.

Once the final assessment is available, the applicant will receive the committee's assessment of this. This is sent electronically by HR.

4. Recommendation for interview

The department management team – possibly with the help of the appointment committee – decides on the selection of candidates for job interviews and conducts these once the assessments have been received. It is not a requirement that interviews are held in connection with other academic staff positions.

For further information about the selection of candidates for job interviews, please see [Guidelines for appointment committees](#).

4.1 References

References should be obtained as part of the efforts to employ the best qualified applicant. Obtaining references requires the consent of the applicant.

For further information about obtaining references, please see "[Guidelines for obtaining references](#)".

5. Recommendation and decision regarding appointment

When appointing other academic staff, the Head of Department makes the final decision. The Head of Department recommends the appointment via the employee registration system (*Medarbejderstamkort*).

6. General recruitment information

6.1 Expenses in connection with recruitment

Expenses (advertising, fees and official travel expenses) are paid by the department.

6.2 Objections regarding assessment

If HR receives objections from applicants regarding the committee's composition:

HR refers the objection to the Head of Department and Vice-dean for Research. Objections may be made according to the Danish Public Administration Act, as the appointment process is an administrative act. HR assists with the case processing. The recruitment is suspended while the objection is being processed.

If the Head of Department receives objections regarding the committee's composition:

The Head of Department immediately forwards the objection to HR who will take further action, including involving the Vice-dean for Research. The recruitment is suspended while the objection is being processed.

If HR receives objections from applicants concerning the assessment:

HR notifies the Head of Department and the Vice-dean for Research and agree on the procedure to be followed. HR requests a statement from the assessment committee by sending the objection to the chair of the committee, who coordinates the committee's statement and sends its response to HR as soon as possible and within eight days. The recruitment is suspended while the objection is being processed.

If the Head of Department receives objections from applicants concerning the assessment:

The Head of Department immediately forwards the objection to HR who will take further action, including involving the Vice-dean for Research. HR requests a statement from the assessment committee by sending the objection to the chair of the committee, who coordinates the committee's statement and sends its response to HR as soon as possible and within eight days. The recruitment is suspended while the objection is being processed.

6.3 Duty of disclosure upon request

Applicants to all academic positions have a right (upon request) to be informed of the names of the persons (Head of Department and the Vice-dean for Research/Dean) who have participated in the decision regarding the appointment. Applicants also have the right to information on the names of persons who have had a consultancy role in the appointment process.

7. Earmarked grants

In the case of earmarked grants, the specific position is not advertised. Other academic staff positions where **at least 50% of the position is externally financed and earmarked for a named person**, are exempt from the requirement of being advertised. If the position is not advertised, then the desired candidate is requested to upload an application including CV, list of publications etc. via a specific application link.

The appointment process for other academic staff is subsequently followed, as described above.
